HONGKONG, FRIDAY, JULY 26, 1878.

at 8.20 this morning.

WE have before us the report of Bishop Raimondi on the Roman Catholic educational and charitable establishments in ment and termination of which do Russell & Co. not appear to be definitely indicated, The report shows that a vast amount of educational, religious, and charitable work is going on under the auspices of the Bishop in the Colony. It is, however a pity that a little more preciseness is not observed in compiling the report. We are told, for example, that the Chinese boys in the West Point Reformatory are "upward of sixty, to whom not less than 12 boys of other nationalities have been this elaborate statement, is the number of boys in the Reformatory, and how many are foreigners? Again, the Bishop in some instances tells us the average attendance, while in others we merely get the number enrolled, or a vague sort | hood's years. of statement that "the number of boys attending the school" is so and so. Put- List of Articles presented to the City Hall ting as intelligent a construction as can on the figures supplied, we arrive at the following numbers of children en rolled on the books of the various Roman Catholic educational establishments the Colony. We have emitted the Victoria 11.80 a. WE stated some time since that the affairs of the Diocesan Home and Orphanage were in a transitional state, and that the widow of Bishop Smith (one of the original supporters of the institution) had resolved to visit Hongkong to look after its condition and management. Fears were then entertained that, by a change in its objects, the sympathy of a large section of the public would be estranged from the institution; but we are glad to learn it has finally been decided that the scope of the Home will now. remain unchanged. The objects of this worthy charity have gradually and almost unconsciously widened during the last tenyears, and it is satisfactory to know that the wide platform now attained will not be abandoned: Everything has been satisfactorily arranged, and a new Master and. Matron are being obtained from England, educational system, although they figure to take the place of Mr and Mrs Arthur, in his report. We now come to the who have resigned. The well-wishers of the Home may therefore congratulate themselves.

THE Members of the Humane Society have received notice to assemble at the West Station (Sailors' Home) at 9 p.m., on Tuesday next, the 80th instant, for night practice with the apparatus. The last" practice was considered a success, and it rests with the members to make this one even more successful. If the members will to a man evince some interest in the society by attending the drills in a body, there is little doubt but what the movement will become one of the most popular in Hongkong. Apart from the object for which the society was organized, the parades afford a healthful recreation of which the youth and manhood of Hongkong (and we possess no mean share) should not be slow to avail themselves. At the same time each member should be told off to some specific duty, as otherwise his attendance is a farce and a waste of time. Even if he be required to do nothing but pull and haul, he should be given to understand as much, otherwise how can he be of any service? He would simply prove an incumbrance and a hindrance. A good plan, and we recommend it to the consideration of the worthy Superintendent, would be for each member to be required cational establishments being 794 and in to take each part of the duty in turn, so that, in the event of the absence of "the two or three who understand all about it," they will not be missed. Members should also be taught how to handle ropes, and

18th June. The most exciting topic of the day is still the elections for the Constitutional Convention, which will shortly be held, Instead of combining together to resist the intentions of the Workingmen's Party, fight, however, will be between the Kearneyites and the supporters of a non-partisan ticket. The issue is a very serious one, but for all that there are people in this city who absolutely refuse to vote for Delegates to the Constitutional Convention. It is wonderful to note the apathy or ignorance, or bots, that is exhibited at this critical chests, period by these who ought to be the most interested in the crisis. A recent dispatch from Omaha States that the Communists there say boldly that on the day that Congress adjourns, every (railroad) car wheel will be stopped at noon. The attitude of affairs in Chicago has produced acrious alarm. The Board of Trade of that city held a meeting a few days ago, at which a resolution was passed memorializing Congress to fix the strength of the army at 100,000 men, in order that sufficient protection might be given to all parts of the country at a time when threats of violence and preparations for armed resistance to the law were rice throughout the land. Last summer the people of Chicago had a foretaste of what they are expecting to recur in larger proportions. It is said by people here that it is quite as safe to depend on

citizen soldiers for the repression of riots, as to rely on a standing army, and far less costly. But this will be found to be a mistake, as before rlots can be suppressed by civilians much mischief is sure to done to property and many lives of civilians must be sacrificed. \* A good show of trained and armed men has a beneficial and deterrent effect on the mob, and is in the end the cheapest mode of defence. At the present juncture all our available troops will be required to suppress ar Lidian outbreak in Idaho. The Bannack

MESSES HEINEMANN & Co.'s Freight Cir-

The market goes from bad to worse, the business done during the past fortnight hasbeen exceptionally small, and rates are quite nominal.

Homewards, no settlements have been effected, the freights for the few charters offering from this port and the Philippines being too low to induce business.

Coastwise, a little has been done for the North, but inquiry is small for both steamers and sailing vessels.

The Bri ish barque Charlotte Andrews, 356 tons, has taken the berth for Melbourne and Sydney. The British schooner Rosebud, 341 tons, left Foochow with her original cargo of Coals, and will load there for the Colonies under charter elsewhere. The German barque Hedwig, 800 tons, left for Ilo Ilo to load there for owner's account. The British barque Eme, 773 tons, left for Foochow to load for London. The British barque Tokatea, 805 tons, will proceed to Vic oria (Vaucouver's Island) under orders from home.

The disengaged tonnage in port amounts to 88 vessels, registering 28,087 tons, steamers not included. The following are the settlements:-

> SILK .- A fitful and not very important business has been transacted in the past fortnight. Settments aggregate 400 bales of Tsatlee reel. 200 of which were taken a week ago. Contrary to the expectation expressed in our last report prices lately have advanced with each successive purchase, and, notwithstanding the large quantity of silk now in Canton, Chinamen are unusually firm and talk confilently of difficult to meet with. Third crop produce is arriving daily from the country in small quantities, and the quality of the yield appears to the good; about 2,500 bales are expected in this grop.

Long-reels have been in very moderate demand, and only 70 piculs are the nettlements reported.

Re reels in sympathy with Teatless, (for we know of no other reason), have considerably advanced in value, and the tendency is upward. 270 boxes, of all sorts of Cumchuck and Lucklow, have been booked.
